## OUR STOCK

Is all grown in the open field beds. We do not shade. Are watered when needed. By not shading we do not get a 1 to 2 inch <sup>Extra</sup> top growth, but a very heavy root system, which is necessary to make a quick, heavy transplant. We are located 265 miles north of Minneapolis in the Native Evergreen Belt.

## OUR SEEDLINGS GROW

Dug right. Puddled and packed in Spagum Moss. Our shipping season begins between April 15th and 22nd. Southern Orders Shipped First

# TERMS
